INNOV8
RACING INC

CLEAN & CARE INSTRUCTIONS

1. Spray off and hand wash with mild soap and water only.
2. Do not use harsh cleaners, wheel, or brake cleaners. Most products on the market are too acidic and can damage finishes.
3. Do not use tire dressings or tire cleaners.
5. Most detail sprays that are used on painted surfaces work well on wheels.
6. We recommend ceramic coatings such as Shine Supply Beadlock & Carpro CQuartz to help protect your wheels.
8. For aggressive offroading we recommend using WD40 prior which helps prevent mud & dirt from sticking to the surfaces.

WARRANTY

- If your Innov8 Racing Inc. product is defective in material or workmanship and you return it to us within one year from the date of purchase, we will replace it or, at our option, repair it at no charge to you.
- The warranty does not cover any damage caused by accident, misuse, failure to follow installation and operation instructions, misapplication, alteration, or attempted unauthorized repair service by anyone other than Innov8 Racing Inc.
- The warranty only applies to original purchasers of Innov8 Racing merchandise and is non trasferrable.
